

Infection Prevention Through Integrated Data Analytics and Training

For Environmental Services

Annual HAIs[#] by the #’s

722,000

HAIs in U.S. acute care hospitals¹

75,000

Patients deaths from HAIs¹

1 in 25

Patients who will contract at least one infection during a hospital stay.²

[#]Healthcare-associated Infections

HAIs by the \$’s

\$28 billion to \$45 billion

Annual direct cost of HAIs to US hospitals only³

Role of Environment In IP

C.diff

CAUTI

MRSA

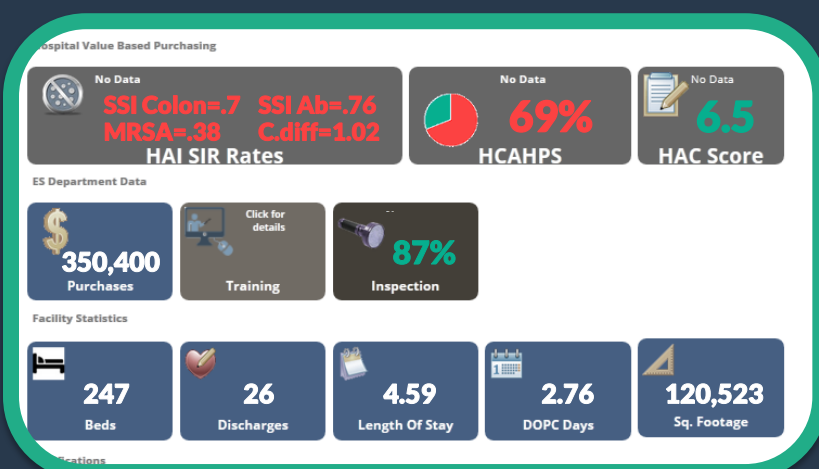

SSI

CLABSI

Contaminated hospital surfaces play an important role in the transmission of dangerous pathogens.⁴

Battle HAIs with HAIdashboard

Single solution for environmental services leaders to analyze and monitor key HAI indicators and integrate online infection prevention training to keep their staff top notch and increase profit.

- Easily track CMS* infection and customer satisfaction scores such as HAI SIR, HCAHPS, HAC and more over time by facility
- Integrate environmental services employee performance information
- Automatically launch integrated online training based on individual employee needs
- Customize visualization cues to maximize understanding of your key performance metrics
